<b>Bio-Stimulating Polynucleotide Mesotherapy</b>	£130
---	------

Firms, reduces fine lines and wrinkles, promotes fresh healthy skin at cellular level. Perfect for those who aren't ready for injectables, mesotherapy is a technique that stamps small needles into the skin releasing a cocktail of polynucleotides, sonicated hyaluronic acid, vitamin C and niacinamide.

For best results, we recommend a course of 3 over 3 weeks.

Not suitable for people with fish allergies.

Course of 3	£300
-------------	------

<b>Nucleofill Polynucleotide Injections</b>	£200
---	------

Advanced skin revitaliser that delivers extended and intensified rejuvenation to the skin. Packed with highly concentrated Polynucleotides, Nucleofill Polynucleotide injections effectively trigger sustained and proactive cell regeneration. It promotes the production of collagen and elastin, resulting in the thickening and lifting of the skin.

Not suitable for people with fish allergies.

<b>Nucleofill Polynucleotide Under Eye Injections</b>	£150
---	------

Nucleofill Eyes is an innovative biotechnology that uses Polynucleotides to stimulate the skin. It helps to reduce dark circles, reduce hollows under the eye as well as reducing fine lines and wrinkles.

For best results, we recommend a course of 3. Works well with Nucleofill skin boosting injections.
